RESIDENCES OF PADUA

CALL FOR ADMISSION OF INTERNATIONAL STUDENTS

A.Y. 2025-26

Collegio Don Nicola Mazza is a University College of Merit accredited by the Italian Ministry of University and Research (MUR). With its activities, it upholds the constitutional right (Constitution of the Italian Republic, Article 34 – Right to Education) by providing capable and deserving students – even if economically disadvantaged – with the opportunity to achieve the highest levels of education.

Therefore, even the economic or socio-cultural conditions of deserving applicants are taken into consideration during the selection process, and admission to Collegio Mazza provides for economic benefits to students in particular situations and/or with specific needs that might preclude access to a valuable college experience.

MERIT: WHAT WE SEEK, ASSESS AND VALUE

Aptitude for personal growth

While the selection process takes into account scholastic and academic achievements, it also explores the aptitude of applicants to express their full potential through a 360-degree growth that encompasses all dimensions of a person.

Aptitude for relationships and sharing

The online interviews are designed to assess applicants' willingness to go beyond an individual approach to higher education by embracing a more comprehensive one, characterized by the opportunity to experience the richness of meeting people, sharing experiences, and collaborating on projects in an international environment.

Sensitivity to take responsibility and help

The selection process considers the applicant's willingness to pursue personal growth by promoting social, entrepreneurial, technological, or cultural innovation and helping others.

Admissions are based on an application process.
